

Utkarsh Raj

Jaipur, Rajasthan, India

rajutkarsh1910@gmail.com — GitHub — LinkedIn

Summary

Computer Science graduate with hands-on experience building and deploying full-stack applications using Python, Java and modern web technologies. Passionate about developing software that solves real-world problems through scalable and user-focused applications. Completed enterprise software engineering training at Capgemini and seeking opportunities in backend and software development.

Technical Skills

Languages: Python, Java, JavaScript, SQL

Frameworks: FastAPI, Spring Boot, Flask, React

Databases: MySQL, PostgreSQL

Tools: Git, Docker, Postman, Vercel

Core Concepts: OOP, REST APIs, DSA, DBMS, Operating Systems, Computer Networks

Professional Experience

Software Engineering Trainee

Jan 2026 – Jun 2026

Capgemini

- Completed enterprise software engineering training in Java, Spring Boot, React and DevOps fundamentals.
- Developed backend modules following layered architecture and microservice principles as part of enterprise software engineering training.
- Worked with Git, Docker and Postman for application development, testing and deployment.

Projects

myMentor

(FastAPI — React — PostgreSQL)

- Developed a personalized mentoring platform that generates structured learning roadmaps and tracks user progress.
- Built Sensei, an AI mentor chatbot powered by the Gemini API to answer questions and provide contextual guidance.
- Implemented authentication and data persistence using Supabase, and deployed the application using Render and Vercel.

TerraVault

(Flask — JavaScript — PostgreSQL)

- Built a responsive educational encyclopedia featuring historical, scientific and geographical content.
- Implemented user authentication and interactive content management.
- Used Supabase for authentication and deployed the backend on Render.

StoreBook

(Spring Boot — React — MySQL)

- Developed an enterprise stationery management platform using Spring Boot microservices.
- Implemented authentication, API Gateway and inventory management modules.
- Containerized microservices using Docker and applied service discovery during development.

Education

Jaipur Engineering College & Research Centre

Bachelor of Technology in Computer Science & Engineering

2022 – 2026

CGPA: 8.19

Senior Secondary (Class XII)

2021

Public Central School, CBSE – 72%

Secondary (Class X)

2019

DAV Public School, CBSE – 91.6%

Certifications

- HackerRank Python (Basic)
- Infosys Springboard – Flask Basics

Achievements

- Received campus offers from Capgemini and TCS.
- Solved 200+ Data Structures and Algorithms problems.
- Winner – Zero Hour Summit Debate Competition.
